SUMMARY

I have been working with web development since 2018, the period during which I have worked in different environments, including start-ups. I am a self-motivated and self-taught professional who likes to solve problems.

I merge a passion for usability and user experience with technical knowledge to create cool digital experiences. My repertoire includes programming languages and tools such as ReactJS, EmberJS, Vuejs, Nodejs, Expressjs, WordPress, MySQL, PostgreSQL, Nginx and Apache server configuration, Gulp, SASS, LESS, Bootstrap, jQuery, and more.

EXPERIENCE

Full Stack Software Developer

WazInsure Services Limited 04/2019 - Ongoing Nairobi, Kenya

WazInsure is an Insurtech company based in Kenya that seeks to enhance the living standards of Kenyans by providing access to affordable insurance products while leveraging technology.

- Design easy user interfaces and great user experiences for the digital platforms of insurance companies.
- Develop web applications using VueJS, ReactJS, Vanilla JavaScript, HTML5 and CSS3.
- Integrate external services such as payment services into WazInsure solutions.
- Created endpoints to handle results, which improved the accuracy and upload speed of each result by at least 50%.
- Involved in coding as per the requirement, delivered well ahead of time which saved project cost by 20%.
- Teamed up with 5 developers for analysis, design, and coding of new enhancements in product
- Worked on 4 web projects in the span of 3 months.

Senior Full Stack Developer

Swadakta eCommerce 01/2018 - 03/2019 Nairobi, Kenya

An eCommerce platform for hawkers to sell their merchandise rent free to an available online market.

- Integrated internally-developed micro-services, as well as marketplace 3rd party modules.
- Developed a web application in 2 months which generates credentials for the new hawkers for instance hawker id.
- Lead a group of 5 member team of like minded developers in providing quality products to the customers.
- Improved code maintainability for the frontend.
